How Much Of A Time Commitment Is High School Executive Board?

- It is much less than you might have experienced in elementary or middle school.
 - On average, we are able to keep it to *no more* than 5 hours a week (those hours may be increased during major events such as After-Prom or the annual Fundraiser when the entire board helps out as much as they are able).
 - Also, the benefits of co-positions on the board allow you to share responsibilities with someone else. Therefore, you are allowed flexibility of time with your elected position.
